

RFID+ CERTIFICATION TRAINING

(Preparatory Training for the CompTIA RFID+ Certification)

RFID4U, world leader in RFID learning solutions presents RFID training gearing towards achieving CompTIA RFID+ certification with real-world equipment where students benefit from extensive hands-on learning and configuring equipment.

Computing Technology Industry Association (CompTIA) RFID+ certification is an internationally recognized validation of the technical knowledge required of entry to mid-level RFID professionals. Those holding the certification demonstrate a broad base of knowledge and competency in interrogation zone basics, testing and troubleshooting, standards and regulations, tag knowledge, design selection, installation and site analysis, RF physics and RFID peripherals.

Highlights from the RFID+ Certification Training Program

Day 1

Learn RFID Fundamentals
RFID Hardware-Tags, Readers, Printers
RFID Applications

Day 2

Physics behind RFID Deployment
Site Planning
Troubleshooting

Day 3

Installation Best Practices
Standards, Regulations & Mandates

Day 4

Exam Testing
EPC Global Network
RFID Middleware Considerations
RFID Data Management
Security & Privacy

Instructor led Hands-on Lab

Training Locations

U.S.

Chicago, Memphis
Dallas, Las Vegas
San Jose, Irvine
Cleveland, New Jersey
Washington DC

U.K.

Oxford
