eSmart Source to Donate Sales and Profits to Tsunami Relief

Sunnyvale, CA January 17, 2004 -- Joining the worldwide effort to help victims of the Indian Ocean earthquake and tsunami, eSmart Source Inc., a leading RFID solutions and training provider announced today that the firm will donate entire sales and profit from one of their popular RFID Made Easy February 12th 2005 training event in Sunnyvale California.

RFID Made Easy is a class room style one-day course that familiarizes participants with the hardware, middleware, software and other key elements necessary for successful RFID deployment. This day-long event will be conducted on Saturday February 12th at the Sunnyvale Sheraton.

With RFID fast tracking to meet 2005 implementation deadlines; investors, companies and job seekers are looking at RFID as "the next big thing". RFID technology includes applications in retail, pharmaceutical, security, manufacturing and other leading industry sectors. Analysts and investors are expecting RFID to dramatically change the way we do business in the future.

RFID industry is expected to grow to more than \$4.2 Billion by 2008.

With so much information and so many steps involved in implementing an RFID solution-tags, readers, printers, middleware, software, EPC Compliance and all the vendors that go along with it, - it can be difficult to know where to begin?

The RFID Made Easy training is an informative, objective and vendor neutral event consisting of executive and technical sessions that help to answer:

- The value of RFID and how it works
- How to practically deploy RFID technology
- How to re-engineer various business processes
- The evolving EPC standards
- Designing an infrastructure to handle the huge amount of data RFID will generate
- Integration challenges
