

**Comp TIA Authorized  
Quality Curriculum**

## Highlights of the Training

### Day 1

#### **RF Physics Standards and Regulations RFID Hardware**

- ▶ Tags
- ▶ Readers
- ▶ peripherals

#### **Design Selection RFID Field Deployment**

- ▶ Site Analysis
- ▶ Installation
- ▶ Testing & Troubleshooting

#### **Q&A - Interactive Review Session**

- ▶ Practice Drill

### Day 2

#### **Testing**

Fast Track CompTIA RFID+ Training is a one-day intensive instructor led training using latest and state of art RFID equipment followed by RFID+ Certification Exam either same day or next day.

The course curriculum as well as practice tests have been reviewed and approved by the Computing Technology Industry Association (CompTIA) as quality training materials through the CompTIA Authorized Quality Curriculum (CAQC) program.

## Prerequisites

Participants you should already possess certain prerequisite skills, which can be gained from completing the foundational RFID courses available with RFID4U or through work experience. The participant should have a working knowledge of:

- ▶ Basic RF fundamentals
- ▶ Tags and various types
- ▶ Readers or Interrogators
- ▶ Standards
- ▶ Current RFID market awareness

The prerequisites are important! Participants arriving without a large portion of these prerequisites will make less than optimal progress in the training and will be unlikely to pass the certification exam.

## Our Guarantee

We guarantee that you will obtain your RFID+ certification. If you finish RFID4U preparation training without the certification, you can attend a future RFID4U training within a period of one year, at no cost to you. To attend a future training, simply retain your courseware. You will only need to pay for meals, test vouchers and travel cost if applicable.
