RFID4U to Co-produce First Ever Intellex RFID DevCon in Chicago

Sunnyvale, CA April 11, 2005 – RFID4U, world leader in RFID learning solutions announced today that it is co-developing and co-producing Intellex DevCon to be held in Chicago on June 15 and 16, 2005.

Intellex DevCon is a workshop dedicated solely to RFID solutions development and testing based on Intellex next generation of advanced RFID products with the capability of interoperating with EPC-compliant readers and tags. DevCon is co-produced by RFID4U world leader in RFID learning solutions. Joint production of this important event brings to the table two days of information filled sessions including hands-on exercises to prepare participant's to evaluate, configure or deploy complex RFID solutions. Registration fees include Class 3 semi-active developer's kit containing Intellex's long-range InfoStructure™ tags and InfoBeam™ multi-protocol reader, antennas, required cables and connectors, and a networking host. More details about the event is available on RFID4U's website <http://www.rfid4u.com> as well as Intellex's website <http://www.intellex.com>.

RFID4U offerings include: one day RFID Made Easy, two days RFID workshop and three days RFID implementation training. RFID4U also offer 12 online live instructors based training modules and have plans to increase the online modules to 25 within next quarter. RFID4U also customizes the training course to suite particular client needs and verticals. A pioneer in RFID learning, RFID4U has maintained a steadfast focus on developing a robust and highly acclaimed catalog of RFID courses. All of RFID4U's content can be delivered in a variety of

formats tailored to individual learning styles - e-Learning, instructor-led training and self-paced learning. All training material have been developed and meticulously updated and maintained to provide the latest thinking on RFID technology.

Training courses are delivered in classroom settings at select locations, onsite at client locations around the world or via our e-Learning option over the Internet.

RFID4U is a partner of choice by suppliers of Wal-Mart, Best Buy, Albertsons as well as Department of Defense. Its client roster includes leading corporations, renowned trade associations and government bodies.

About Intellex

Intellex Corporation's innovative RFID technology provides industry with *best in class, standards-compliant* products that address critical market needs and enable new functionality. Intellex tags and readers are designed to deliver unprecedented range and read/write accuracy, user-defined memory, and application-specific security. Intellex is at the forefront of the next wave of RFID systems that not only identify, but communicate, remember and sense. For more information, visit <http://www.intellex.com>

Learning with RFID4U

RFID4U (a division of eSmart Source, Inc.) headquartered in California, is a worldwide leader in vendor neutral RFID learning solutions. RFID4U have assembled a full complement of products and services to help companies align technology with their business objectives. The variety of learning options from RFID4U allows participants to learn in the manner that best suits their schedule, budget, learning style and expertise. All courses are delivered by senior highly experienced RFID solution developers/trainers who teach from a practical perspective with lots of tips and techniques to enhance rapid RFID technology evaluation and deployment. Participants are trained in a highly interactive learning environment with follow-up assistance to help each one apply what they learn. RFID4U is also cornerstone member of the CompTIA's advisory committee for RFID certification.

For more information on RFID4U's training, please e-mail your request to info@rfid4u.com, phone RFID4U at (866) 400-RFID or (408) 739-3500 or visit <http://www.rfid4u.com>
